

Explanation of signup.html (Signup Page)

◆ **1. Page Title**

- The title of the page is “**Signup Page**”.
 - This is the name that appears on the **browser tab**.
-

◆ **2. Page Background & Font**

- The background color of the page is **light gray**.
 - The text style (font) used is **Arial**, which looks clean and simple.
-

◆ **3. Signup Box (White Form Area)**

- All the signup form details are shown inside a **white box**.
 - This box is:
 - Centered on the screen
 - Has curved corners
 - Has a shadow, so it looks like a card
 - This makes the form look neat and professional.
-

◆ **4. Heading – “Signup”**

- At the top of the box, the word “**Signup**” is written.

- It tells the user that this page is for creating a new account.
-

◆ **5. Input Fields (What User Must Fill)**

The user has to enter the following details:

1. Full Name

- Used to enter the person's complete name.

2. Email

- Used to enter a valid email address.

3. Mobile No

- Used to enter the user's phone number.

4. Password

- Used to set a password for the account.

5. Confirm Password

- Used to re-enter the same password to avoid mistakes.

6. User Type (Dropdown List)

- The user selects their role:
 - Admin
 - Student

All these fields are **mandatory**, which means the form cannot be submitted without filling them.

◆ 6. Signup Button

- The **Signup** button is shown in **green color**.
 - When the user clicks this button:
 - Their registration process will start (later it can be connected to backend code).
-

◆ 7. “Already have an account?”

- Below the button, there is a message:
 - **“Already have an account?”**
 - This is for users who are already registered.
-

◆ 8. Login Link

- A **Login** link is given at the bottom.
 - If the user clicks **Login**, they are taken to the **Login Page** (`login.html`).
